

Where do I live?

Animals are well adapted for the habitat they live in. They possess certain attributes which allow them to survive and thrive in some of the harshest of environments.

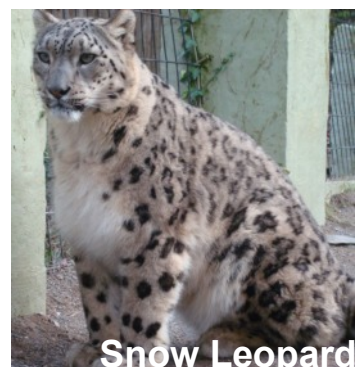

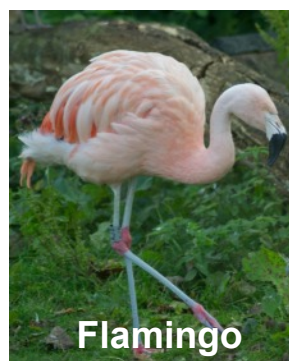

Choose animals from the selection below.

Can you work out which habitat the animals live in?

Consider the adaptations each animal has and how these help the animal survive in its habitat.

- Tundra
- Polar
- Rainforest
- Woodland
- Savannah
- Desert
- Swamp
- Coastal
- Ocean
- Mountain
- Lake

Where do I live?

Habitat:

I think the _____ lives here because...

Habitat:

I think the _____ lives here because...

Looking at the previous page, match all the animals to their habitat and work out which habitats do not match to an animal.

Think of an animal that lives in one of these habitats and list its adaptations.
